

warfighter.dla.mil is a secure, online order fulfillment and robust information system. It offers 24/7 ordering convenience, a cutting-edge, photo-filled catalog and a user-friendly supply system that accelerates the logistics process and minimizes customer wait time. Specialty shops, which are mini-catalogs tailored to specific demographic groups, identify unique shopping needs and make error-free ordering a reality. warfighter.dla.mil's main catalog is open and accessible for "window shopping", research or for finding just the right item. Searches can be simple or advanced, entering keyword, description, national stock number, military specification number, or procurement grouping code. Searches can also be tailored to the using service (s). Reusable shopping carts support online ordering, which is restricted to authorized, registered users.

For registered users, warfighter.dla.mil accepts orders for either regular or special measurement clothing / footwear. It provides stock on hand, item manager notes (Virtual Page Application), requisition and shipment status, delivery information, and also accepts online submissions and tracking of Supply Discrepancy Reports. Our Legacy System Interface program is a powerful management tool that allows registered users to obtain or download information on their requisitioning history, or that of their subordinate units, for inclusion in their own systems.

For now warfighter.dla.mil accepts multiple methods of payment: MILSBILLS and Government purchase cards. Our next release will allow the acceptance of personal credit cards from authorized customers who have been validated through the Defense Enrollment Eligibility Reporting System (DEERS).

Information abounds on the web site. warfighter.dla.mil provides extensive item information: description, specification number, quantity unit pack, Universal Product Code, and using services. Contact information for specific item data is also provided. Past users may remember finding item manager names, phone numbers and email addresses but they have been eliminated for security reasons. For users' information, assistance and immediacy of convenience, all required customer online data entries are directly linked to the Online DLA Customer Assistance Handbook. For those with technical needs, customers will find wide-ranging, specific information on Clothing & Textile's shelf life items, including information on expired or extended shelf life items, on The Shelf Life Page.

Specialty Shops, our popular and extensively-used mini-catalogs, cater to such diverse groups as chaplains, law enforcement officials, Army and Navy aviators, combat vehicle crewmen, users of physical fitness uniforms, extreme cold weather clothing system items, regular footwear and boots, special measurement and orthopedic footwear and boots. Complete needs for Army, Air Force and Marine Corps Reserve Officer Training Corps (ROTC) are found in the Specialty Shop section under ROTC Market Baskets. BaseCamp, one of our most popular specialty shops, provides a catalog and comprehensive technical repository for all of our tentage and related items. Our newest shop covers a wide range of items used for Operation Enduring Freedom.

warfighter.dla.mil encourages customer feedback, promising all a review and rapid response. All customer comments and related replies receive top-level management review. Many web site additions and refinements are directly traceable to customer comments. Click on "General Information" to find the C&T feedback email link.

warfighter.dla.mil Main Menu Bar Home Page

Welcome to the warfighter.dla.mil web site. This segment of the manual describes the multiple functions of the Home Page and walks you through the general headings. From this page, you have a full range of options: registration, research, browsing or shopping.

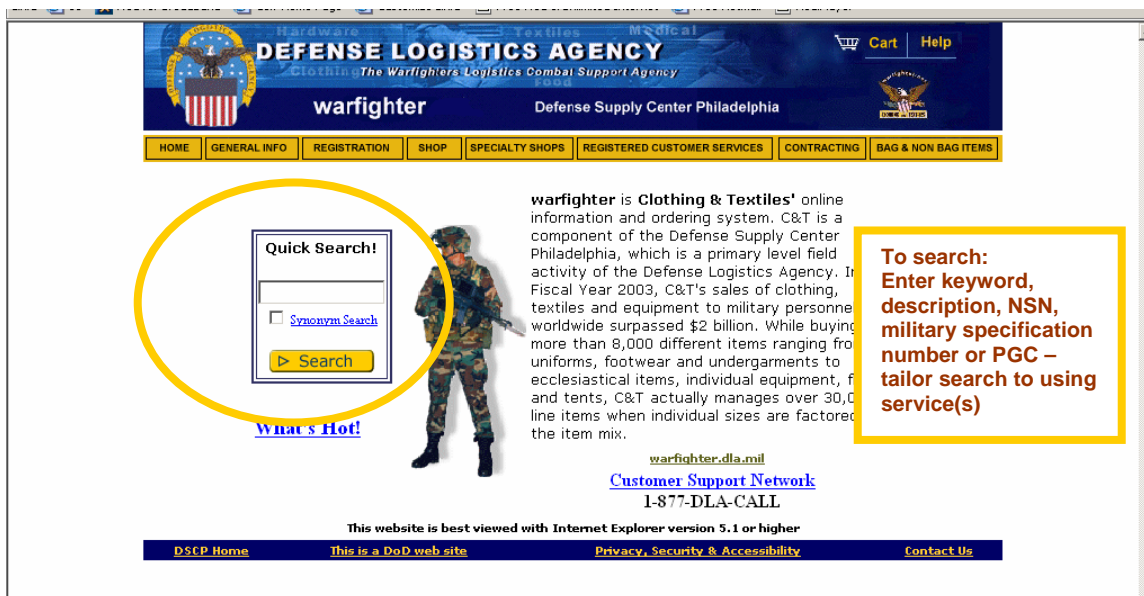

At the very top right of this page you'll see two "fast clicks": "Cart" and "Help", which will appear consistently throughout the site at that same location.

The gold bar displays warfighter.dla.mil's main menu, which will also appear on page headings throughout the site, to help you navigate easily. Here you will find the following categories: Home, General Information, Registration, Shop, Specialty Shops, Registered Customer Services, Contracting and Bag and non-Bag. As you move your mouse over each category, individual drop down menus will appear.

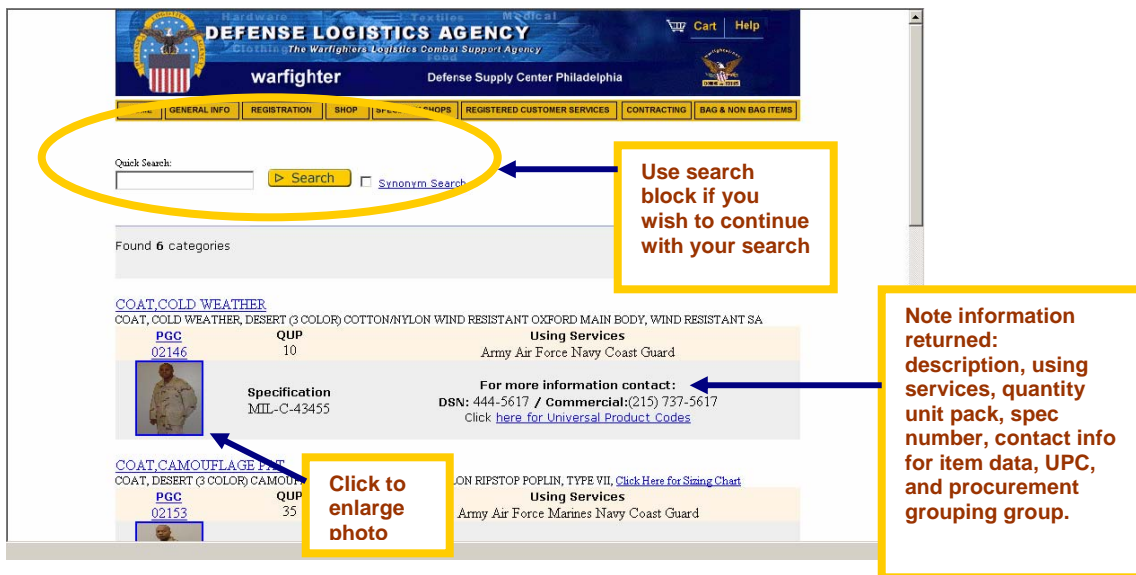

From the Home Page, you can window shop or browse our catalog using the "Quick Search!" function. You can enter a keyword, e.g., coat; description, e.g. coat desert; tailor by using service(s), e.g., coat desert Army Air Force; a national stock number, e.g., 8415-01-327-5315; a procurement grouping code, e.g., 02153, or a military specification number, e.g., 44048.

Be sure to check out "What's Hot!" each time you visit warfighter.dla.mil. In addition to special interest items, you will also find the latest edition of Clothing & Textiles' monthly newsletter called **The Clothesline**, which is your best source of information on new items, special price reductions, problem items, estimated get-well dates and for some problem items, some great substitutes. Smart shoppers consider **The Clothesline** required reading. Past issues, as well as the current issue, can be found on the main menu under "General Information".

warfighter.dla.mil Quick Search!

warfighter.dla.mil's main catalog is open to all and accessible for "window shopping", research or for finding just the right item. Search results return extensive item information: description, specification number, quantity unit pack, Universal Product Code, using services, and contact data for specific item information. warfighter.dla.mil's search function is easy to use and provides the customer with many search options. To use the "Quick Search!" function enter a keyword, e.g., coat; or a description, e.g. coat desert; or tailor search by using service(s), e.g., coat desert Army Air Force; or a national stock number, e.g., 8415-01-327-5315; or a procurement grouping code, e.g., 02153, or a military specification number, e.g., 44048. In the above example, we entered *coat desert Army Air Force*.

As indicated above, you must be registered to place an order. In addition to ordering, registered users have the ability to access other services, e.g., to retrieve requisition status and delivery / transportation information, to obtain item manager notes (Virtual Page Application), to download requisitioning information for you or your subordinates through the Legacy System Interface and to submit or track status for a Supply Discrepancy Report (formerly called a ROD). Access "Registration" at the main menu bar and follow the prompts. After you apply, you can order as soon as you receive an email confirming your registration. A confirmation is normally received within forty-eight hours. The registration confirmation will provide you with temporary password which you will change the first time you shop.

warfighter.dla.mil Main Menu Bar General Information

The General Information drop-down menu supports the following:

- "About DSCP": Check here for organizational phone numbers, directions, Annual Reports, our history, acronyms and abbreviations and more.
- "About C&T": We provide some background on C&T, identify the Federal Supply Classes we manage and give you a link to our C&T Business Directory.
- Customer Feedback: Top C&T management reviews customer Feedback emails and related responses. We guarantee a prompt answer.
- **The Clothesline**: Find current and past issues of C&T's monthly customers' newsletter, **The Clothesline**, the smart shopper's best source of information on new items, special price reductions, problem items and estimated get-well dates and for some problem items, some great substitutes.
- Streamers, Guidons and Organizational Flags: Check here for Service-specific information on how to place item orders.
- Shelf Life Page: Click here to find a complete technical guide on C&T's shelf life items, testing results, expired items, manuals, etc.
- User Manual: Easy-to-use instructions on the warfighter.dla.mil web site, indexed by web page or topic, e.g., Quick Search Page, can be found here.
- Frequently Asked Questions (FAQs): Here's your first source for answers. FAQs provide comprehensive warfighter.dla.mil information. Click on individual FAQ to read response.
- C&T Business Directory: Lists all C&T's management positions and related phone numbers. Note: For security reasons, names are no longer provided.
- DLA Customer Assistance Handbook: This is a direct link to the Handbook. Note: Within warfighter.dla.mil, underlined areas are also linked to the Handbook for your quick and easy reference.

warfighter.dla.mil Main Menu Bar Registration

Registration Menu Options:

User Registration: To shop on warfighter.dla.mil or to access specific functions such as requisition status, delivery status, legacy system interface, item manager notes (Virtual Page Application), or on-line submission of supply discrepancy reports, a user must be registered.

warfighter.dla.mil accepts registrations from federal customers having a DODAAC, who pay for their orders using MILSBILLS or a Government Purchase (credit) Card.

To register for an account with warfighter.dla.mil: Go to the main menu of the warfighter.dla.mil web site and click on "Registration". Go to "User Registration" on the dropdown menu and follow the prompts. Customer information includes: name, organization, address, email address, commercial phone number, including area code, FAX and DODAAC. During the process, customers will also be prompted to input "Mother's Maiden Name" as a security feature in case you forget your password. Any name or word, that you will remember, can be used here. MILSBILLS and Government credit card registrations require a valid Department of Defense Activity Address Code (DODAAC). All Government credit card registrations will automatically be registered for MILSBILLS usage. Government credit card registrations will accept two (2) credit cards per account. MILSBILLS accounts can register up to five (5) DODAACs online at the time of registration. More can be added by calling us at 1-800-US-CLOTH.

After all required data have been submitted, a screen will appear showing your user login id and a temporary password. Normally within forty-eight hours, you will receive an email confirmation that your registration has been reviewed and accepted by the warfighter.dla.mil system. As soon as you receive email confirmation that your registration has been accepted, logon to warfighter.dla.mil, change your temporary password, and you can start submitting your shopping carts. However, if your first order is for a special measurement item, there is a wait time of one day after you change your temporary password.

For now, all credit card users must contact us at 1-800-US-CLOTH to change information in your personal profile, such as, address, type of card and expiration month/year.

warfighter.dla.mil Main Menu Bar

Registration, continued:

NOTE: Users can set up their account to use either MILSBILLS or a Government Purchase Card as their preferred or default payment method. Users may change that preference by editing payment method for a specific shopping cart (entire order), during the ordering process.

Info on DODAACs and Passwords:

Department of Defense Activity Address Code (DODAAC): A DODAAC is a six-digit alphanumeric code that uniquely identifies your unit, activity or organization that has the authority to requisition and / or receive materiel. It supports the Defense Transportation Payment Program. The first digit is a service code (e.g., "N" represents the Navy), so many folks think of it as a five digit Activity Address Code. If you've ever submitted a requisition to us (or to another DoD purchasing activity), your DODAAC is the first 6 characters of the Document Number. There can be up to three distinct addresses associated with each DODAAC: the TAC1 (mailing address / mandatory); TAC2 (ship to (freight) address) and TAC3 (billing address). If there is no TAC2 present, warfighter.dla.mil will use TAC1 as the shipping address.

To request a DODAAC or to update/correct your information, contact your Service or Agency Point of Contact (POCs) at http://www.dscr.dla.mil/PC9/G_info/dodaacs-servicepoints.htm

Password creation: At registration you will be assigned a temporary, generic type password, which you will have to change when you logon to warfighter.dla.mil for the first time. Since warfighter.dla.mil is a military site, DOD password rules apply. All passwords must have at least 8 characters. Passwords must contain characters from at least three (3) of the following four (4) classes within the password: upper case letters, lower case letters, numbers and special characters. See below:

<u>Description</u>	<u>Example</u>
Upper case letters	A, B, C, ...Z
Lower-case letters	a, b, c, ...z
Numbers	0, 1, 2, ... 9
Special Characters	Such as punctuation symbols (".';?!?/)

Passwords may NOT contain your login name or any part of your full name. **Passwords will expire every 90 days** and the system will remember your last two (2) passwords, so they cannot be reused. Examples of valid passwords: Pxy999a or new4you# or not4Sale.

User Manual: warfighter.dla.mil's online User Manual is also available here. Topics are indexed and hyper linked for your convenience.

Forgot Your Password: At registration you entered something known only to you: your mother's maiden name or some other name. Should you forget your logon or password, click here or at the logon page where you will be prompted to enter that personal information you gave at registration. When verified, the system will provide needed data.

WARFIGHTER WEBSITE USER AGREEMENT

TO ALL WARFIGHTER WEBSITE USERS: PLEASE BE AWARE OF THE USER SECURITY RULES OF BEHAVIOR. BY VIRTUE OF YOUR USE OF WARFIGHTER WEBSITE, YOU ARE IN AGREEMENT OF THESE RULES.

1. Introduction
The following rules of behavior are to be followed by all users of the warfighter website, henceforth referred to as warfighter. The rules clearly delineate the responsibilities and expectations for all individuals with access to warfighter. Non-compliance with these rules may be enforced through sanctions commensurate with the level of infraction. Actions may range from a verbal or a written warning, removal of system access for a specific period of time or criminal prosecution, depending on the severity of the violation.

2. Responsibilities
As a user of warfighter, you have the responsibility to support any security controls implemented. Since warfighter is networked and part of the Internet, you have access either through warfighter or over the Internet to almost every unclassified computer in the entire Department of Defense (DOD). This internetworking of computers makes your computer a gateway to vast amounts of sensitive but unclassified information. The security of our networks is only as strong as the weakest link. As a user of warfighter, you play a key role in ensuring the availability, confidentiality, and integrity of our data.

3. Other Policies and Procedures
The below rules are not intended to replace existing policy, rather they are intended to enhance and further define the specific rules each user must follow while accessing the warfighter. The rules are consistent with the policy and procedures described in section 4 of the warfighter System Security Authorization Agreement.

4. Rules of Behavior
As a user of warfighter:

- I understand that I am responsible for the security of my login ID and my password.
- I understand that I may be held accountable for anything that occurs on warfighter under my login ID and password.
- I understand that passwords will not be shared or displayed on my workstation or PC. I understand that if a password is written down, it will be protected with the same care as used to protect the personal identification number (PIN) for a credit card or bankcard.
- I understand that passwords will not be electronically stored. This includes the use of "hot keys" and macros that are intended to "shortcut" the authentication process.
- I understand that access is granted on need-to-know or least privilege basis. Enough access is provided to use warfighter and no more. I will not attempt to circumvent established security configurations to gain more access.
- I understand that I will not modify my PC configuration settings to circumvent established security practices.
- I will not attempt to run "sniffer" or hacker-related tools on warfighter.
- If I observe anything on the system while I am using warfighter that indicates inadequate security, I will immediately notify warfighter and my local ISSO/ISSM or other authorized computer security personnel. I know what constitutes a security incident and know that I must immediately report such incidents.
- I understand that use of warfighter constitutes consent to monitoring. Warfighter is monitored to ensure that use is authorized and that users follow security procedures. Monitoring is also performed to see if hackers have gained access to computers.
- I understand that use of warfighter constitutes consent to monitoring. Warfighter is monitored to ensure that use is authorized and that users follow security procedures. Monitoring is also performed to see if hackers have gained access to computers.

5. I will handle all sensitive information on an appropriate basis.

6. I will comply with all security guidance issued by the warfighter system administrator.

Your warfighter registration is conditional upon your acceptance of these terms, which we suggest you print and file for your records.

Do you accept these terms?

Yes No

Note: You must read and agree to these Rules of Behavior before we can process your registration. It is suggested that you print and retain a copy of these Rules for your records. System security is of paramount concern to warfighter and its users.

Hello Buzz Lightyear!

We are pleased to confirm your registration for DLA's warfighter.net, Clothing & Textile's online information, catalog and ordering system. Please bookmark us at

When you registered for an account, you must change your password the first time you log on.

Please do not share your login information.

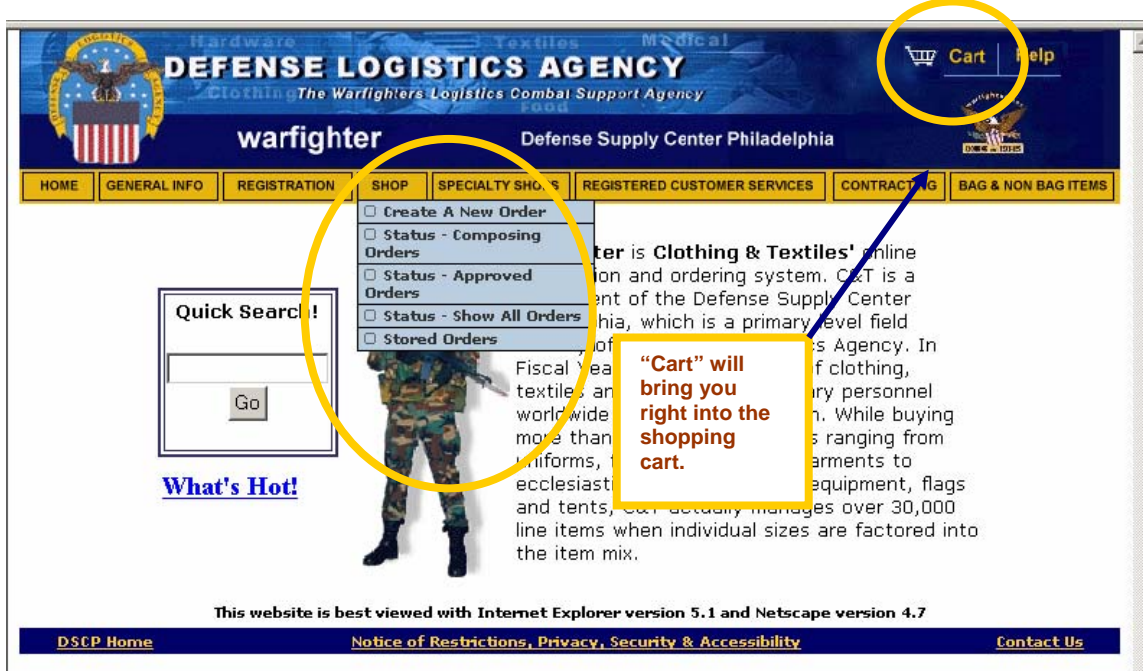

We have your email address as [redacted], your voice phone number as "215-733-1234" and your FAX number as "215-733-1234". If any of this information is incorrect, please contact us.

Please note: Your items will be shipped to your home address at <https://day2k1.daas.dla.mil/dodg...> or you can change your home address and have direct mail shipped to the following alternate shipping address when you registered.

Thanks,
 [redacted]

warfighter.dla.mil Main Menu Bar

Shop – General Information

There are five selections on the Shop dropdown menu. The first, “Create New Order”, facilitates putting together a brand new order or shopping cart. If you have not yet logged on, the system will bring you to the log on page. Once you log on, select the item desired using the “Quick Search”. Users also have the option of clicking on “Cart” in the upper right hand corner of the page.

The next selection is “Order Status”. Here you find “Composing Orders”, which may or may not be completed, but have not been submitted. If you started an order, but were “timed” out or you had a power failure, the order is saved here. They may be retrieved, edited or not, and submitted; or, you may delete them.

warfighter.dla.mil Main Menu Bar

Shop, General Information continued:

“Approved Orders” is the next choice. Included here is a detailed history of the orders/shopping carts that you have submitted. For details on the order (items, quantities, billing and shipping addresses, etc.), click on the Order Number.

warfighter.dla.mil Main Menu Bar

Shop, Create New Order, continued:

A continuation sheet will appear along with the "Order – Submitted" screen. This sheet, which we suggest you print, will provide detailed order information: requisition number, NSN, quantity ordered, unit price, extended cost, item description and size. The total cost of your order and your billing method will be cited.

Immediately after you submit your order, warfighter.dla.mil will send you a confirming email that provides your order number and total transaction dollar value. It will include information on how to obtain order status and it will also specify your billing method (MILBILLS or Government purchase (credit) card) and shipment address. To obtain your order status – anytime after twenty-four hours of order submission, you will need your order number from the confirmatory email.

For status, log on and at the main menu of warfighter.dla.mil, click on "Shop", "View Approved Orders". Look for your order number and click on it to see all the specific requisition document numbers. Included will be the items, sizes and quantities ordered, unit prices, and total cost. REMEMBER: You have to wait 24 hours to obtain order status.

warfighter.dla.mil Main Menu Bar

Shop, Create Stored Order:

Stored Orders provide customers with great flexibility and shorten on line shopping time. After you register and log in to shop, you can create a shopping cart for repetitive item purchases; we call them a "Stored Order", or shopping template. If you service multiple customers (DODAACs) within your warfighter.dla.mil account, you can set these stored orders by specific customer. You can include personalized MILSTRIP, billing or shipping information in these stored orders. To create a stored order, click on "Cart" and begin to assemble your stored order, or shopping template. Follow the usual "Search", "Add Item" process. However, when you have added all the items for your stored order, you must name your stored order and click the "Save" button. The order will be stored and you will be able to retrieve it for continuing future use.

To retrieve a stored order, log in, click on "Shop" and click on "Stored Order". When your Stored Orders page appears, click on the one you want. Retrieve the order and open it. When it opens, you will see a link, "Create Cart from Stored Order" in the upper left corner of the page. Click on it to begin shopping with the stored order cart (your template). You will see a new order number with all new requisition numbers. At this time, you can add more items to the shopping cart, edit quantities or delete items from the template using the marked buttons to the right of the requisition line. The actions that you take: add item, edit quantity or delete item will *apply solely to this current order and not affect your stored order*. When complete your shopping, click on "Checkout". You have created a new, distinct order, which you can title. warfighter.dla.mil will return the original stored order (your shopping template) for future use. In effect, you can create your own personal specialty shops that are tailored to your unique repetitive needs.

Naming of stored orders: Name the stored orders anything that will facilitate your administrative needs. Customers may set up stored orders for individuals, for units, for project codes, for specific functions, for specific dates, etc.

Limits on number of stored orders / items: There are no limits! The number of stored orders is unlimited ... as is the number of items within a stored order. This function is designed for your convenience and use. With larger stored orders, those with over 300 line items, customers may experience some performance issues with respect to processing time.

warfighter.dla.mil Main Menu Bar

Notes For Your Use Regarding this Order

Comments:

warfighter.dla.mil Main Menu Bar

Shop, Stored Order -- Retrieve:

As indicated, Stored Orders are intended for your continued use and convenience. The basic templates may be used over and over, with editing occurring within the current shopping cart, where you can either use the stored order as is, or add and delete items or modify quantities. After you create your stored order, it is easy to retrieve and use.

The Stored Order menu displays all your stored orders on file. If at any point, a stored order is no longer required, or if you have modified it and replaced it with a stored order carrying a new name, select the unwanted stored order, and click the “Delete” button at the lower left hand corner of the page to remove it from your file.

warfighter.dla.mil Main Menu Bar**Shop, Stored Order, Create Cart from Stored Order:**

The stored order appears just as you created it initially. To utilize it for shopping, click on “Create Cart from Stored Order”. Should you want to return to the stored order list, click on “Back to Order List”. Note your log in name and the name of this stored order on the upper right hand corner of the page.

The screenshot shows the warfighter.dla.mil interface. At the top is the header with the Defense Logistics Agency logo and navigation links: HOME, GENERAL INFO, REGISTRATION, SHOP, SPECIALTY SHOPS, REGISTERED CUSTOMER SERVICES, CONTRACTING, and BAG & NON BAG ITEMS. Below the header, there are two yellow callouts. The left callout highlights the 'Stored Order' section, which contains links for 'Create Cart From Stored Order' and 'Back To Order List'. The right callout highlights the user login information: 'Logged in as Edgar Allen Poe' and 'Stored Order Name: Edgar's shirts'. Below these callouts is a table of line items with columns: No., National Stock Number, Qty, Unit, Unit Price, Ext. Price, Req Line Number, Advice Code, MRQ, and Action. The table contains five rows of data. At the bottom right, there is a yellow box showing the 'Order Total: \$2,969.30'.

No.	National Stock Number	Qty	Unit	Unit Price	Ext. Price	Req Line Number	Advice Code	MRQ	Action
1	8415-01-472-3526	10	each	\$64.55	\$645.50	957102		90	
2	8415-01-461-8336	5	each	\$64.55	\$322.75	957102		312	
3	8415-01-461-8337	7	each	\$64.55	\$451.85	957102		2400	
4	8415-01-461-8341	20	each	\$64.55	\$1,291.00	957102		4000	
5	8415-01-461-8356	4	each	\$64.55	\$258.20	957102		3500	

Order Total: \$2,969.30

When you click, “Create Cart from Stored Order”, the normal shopping cart will appear. At that time, you will see a new Order Number, new Requisition Line Numbers, the Advice Code, and Action buttons that will allow you to either edit the quantity desired or to delete the item from that particular shopping cart. At the top left page of the shopping cart, you will see a link “Continue Shopping”. That link will allow you to add more items to your shopping cart without affecting the make up of your original stored order. You will also have the ability *for this particular order*, once you are in the shopping cart, to edit DODAAC information, MILSTRIP data and shipping or billing data.

Your stored order serves as the basis for this shopping cart. However, for this particular order, you can add items, delete items, modify quantities and change other pertinent order information. *Whatever changes you submit affect this shopping cart only.* When you checkout this shopping cart to submit your order, your original stored order will be returned to the file for your future use.

Shopping cart shows 4 items now ILO 5 – and a reduced quantity of 5 for item #1

When you finish shopping and have reviewed your MILSTRIP, billing and shipping information, click "Checkout"

warfighter.dla.mil Main Menu Bar**Shop, Stored Order. Create Cart from Stored Order, continued:**

Immediately after you click “Checkout”, warfighter.dla.mil will display an “Order-Submitted” page. If there was an edit violation, warfighter.dla.mil will return an error message, which you may click on for additional information.

A continuation sheet will appear along with the “Order – Submitted” screen. This sheet, which we suggest you print, will provide detailed order information: requisition number, NSN, quantity ordered, unit price, extended cost, item description and size. The total cost of your order and your billing method will be cited.

Immediately after you submit your order, warfighter.dla.mil will also send you a confirming email that provides your order number and total transaction dollar value. It will include information on how to obtain order status and it will also specify your billing method (MILBILLS or Government purchase (credit) card) and shipment address. To obtain your order status – anytime after twenty-four hours of order submission, you will need your order number from the confirmatory email.

For status, log on and at the main menu of warfighter.dla.mil, click on “Shop”, “View Approved Orders”. Look for your order number and click on it to see all the specific requisition document numbers. Included will be the items, sizes and quantities ordered, unit prices, and total cost. REMEMBER: You have to wait 24 hours to obtain order status.

To recap, we created a stored order, “Edgar’s Shirts” and saved it. Later, we logged on to Shop, Stored Orders and retrieved the stored order named “Edgar’s Shirts”. We clicked on “Create Cart from Stored Order”. The Shopping Cart appeared, showing the shopping template. A new Order Number was displayed, as were new requisition line numbers. At that time, we modified the order and submitted it as a new order. The stored order, “Edgar’s Shirts”, was returned to the Stored Order file. The next time it is retrieved, it will appear exactly as it was established, showing the 5 items and the quantities as designated initially.

warfighter.dla.mil Main Menu Bar

Shop, Stored Order, Modify:

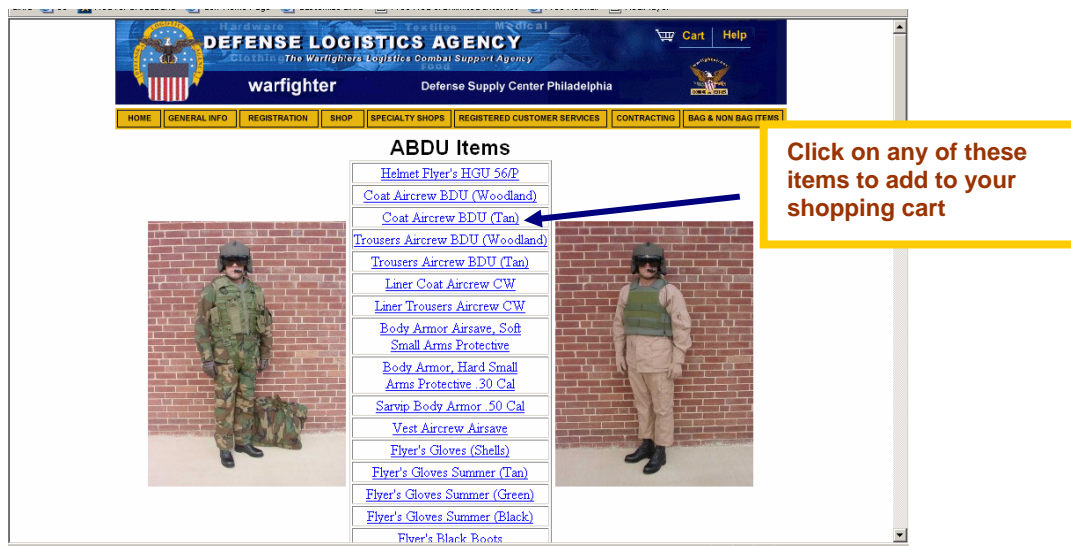

To Modify a Stored Order: To change a stored order, or shopping template, log on and retrieve the stored order you wish to alter. Click on "Create Cart from Stored Order", edit the order as required: changing quantities, adding items, deleting items or modifying any other information (MILSTRIP, billing, shipping, etc.) which pertains to that stored order. When your changes are completed, you must enter a **new stored order name** and "**Save**" it. Both stored orders will appear the next time you log on. If you choose, you may delete the original stored order to eliminate confusion.

warfighter.dla.mil Main Menu Bar Specialty Shops:

Specialty Shops are unique, mini-catalogs that focus on a specific customer demographic. They're designed to speed your shopping and make it easier for you to order just the "right" item. Current shops include: Operation Enduring Freedom, Base Camp (tentage items), Chaplains' Corner (ecclesiasticals), Fighting Footwear, Navy Aviators, Aircrew Cold Weather Clothing System (ACWCS) Components, Combat Vehicle Crewman (CVC) Components, Law Enforcement, Extreme Cold Weather Clothing System (ECWCS), Special Footwear, and the Gym Bag (physical fitness uniforms). We also support Market Baskets for the Reserve Officer Training Corps (ROTC), which contain the full array of uniform needs for the Air Force, Army and Marine Corps ROTC programs. As a single user, you can establish your own "mini specialty" shop by creating a template of the items for your special program, project, unit or individual and save it as a "stored order", which you can later retrieve and use over and over.

Army Aviators Shop supports the full ensemble needs of both helicopter and fixed wing pilots displaying gear that is normally issued from Central Issue Facilities.

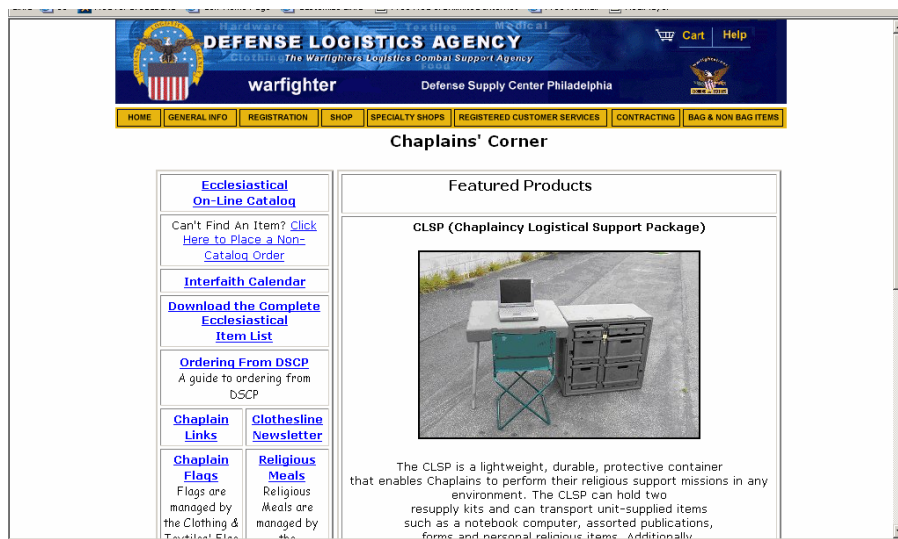

warfighter.dla.mil Main Menu Bar

Specialty Shops:

Base Camp provides entry to DSCP's Tentage Super Store. To facilitate your shopping or your research, check the quick comparison table of available tents and related items. Clicking on the tent of your choice will display a full description, suggested usages, pictures, and parts breakdowns. Click on the desired NSN to find photos, Military Specification Numbers, unit prices and a hyperlink to the item manager. Base Camp also provides an ever-changing array of "nice to know" informational links. They include Set-Up Hints; the Resource Handbook that lists tent accessories and support parts; a Navy tent link; the Lightweight Maintenance Enclosure (LME); historical data on canvas and combat fabrics; Common Tables of Allowances for Field and Garrison Furnishings and Equipment; and the U.S. Army Soldier & Biological Chemical Command (SBCCOM).

Chaplain's Corner offers ecclesiastical items that support the chaplaincy of all services and all faiths. Inventory, which is always being updated, includes a wide range of ecclesiastical items as well as chaplain kits, portable public address systems, chaplains' flags and religious wines and meals. We can accommodate requirements as small as a candle or as large as a chapel. Click on the desired NSN to purchase or window shop; you'll find – photos, stock on hand, unit prices and a hyperlink to the item manager. Various chaplain-related links; the chaplain's survey, the Chaplains' Corner Newsletter, information on DSCP's ecclesiastical Prime vendors and relevant points of contact are provided. There is also a special provision to accept orders for non-catalog items.

warfighter.dla.mil Main Menu Bar Specialty Shops:

Combat Vehicle Crewmen Shop features all the items that make up the complete combat vehicle crewman ensemble facilitating easy access and ordering, especially for Central Issue Facility customers. Items include goggles, helmets, hoods, coveralls, jackets, body armor, gloves, boots, and equipment bags.

Extended Cold Weather Clothing System (ECWCS) provides for the complete ECWCS ensemble. Those interested in shopping here will find ECWCS items broken out by layers (one through five), as well as hand wear, headwear, footwear and accessories. Clicking on an item brings you directly into the preview/ordering process. When appropriate, notifications regarding special pricing and item replacements are listed.

warfighter.dla.mil Main Menu Bar Specialty Shops:

Fighting Footwear features nearly all of your day-to-day footwear requirements. The site provides footwear to address combat, dress and safety needs as well as the specialized footwear needed to deal with extreme cold weather, cold weather, and intermediate cold wet needs. All types of flyer's boots are located here. We carry a wide variety of all manner of rubber boots. For your convenience, you can order deck boots, footwear covers, footwear laces and foot measuring devices from this shop. To facilitate your order placement, the shop offers several footwear-related hyperlinks. Just a "click" will get you help on how to register to use the site. Another click will get you technical assistance, or information on rubber boots, or leather boots or shoes. There's even a link on how to order special measurement and orthopedic footwear.

The Gym Bag makes it a snap for members of all services to shop for their physical fitness uniform needs. Find your service's section and click on the desired NSN to purchase or window shop; you'll find – photos, stock on hand, unit prices and a hyperlink to the item manager. Points of contact and some great health and fitness links are also provided.

warfighter.dla.mil Main Menu Bar Specialty Shops:

Law Enforcement supports Section 1122 of the National Defense Authorization Act and provides for Federal Government support to state and local law enforcement personnel engaged in drug interdiction. Regulations require that designated State Points of Contact (SPOCs) place all orders. From the menu, select exactly where you want to be: Home page, Items (as in this example), SPOCs, etc. Examples of items available through this site include coveralls, jackets, black BDUs, cold weather garb, extreme cold weather clothing system, equipment, running shoes and other footwear, gloves, headwear, wet weather items, etc. Items are constantly being added to the site. Click on the desired NSN to purchase or window shop; you'll find – photos, descriptions, stock on hand, unit prices and a hyperlink to item information.

Naval Aviation customers have the convenience of finding an entire array of specialized items to support their needs. Items include flight jackets, flight suits, gloves, boots, underwear, equipment, helmets and accessories as well as related links.

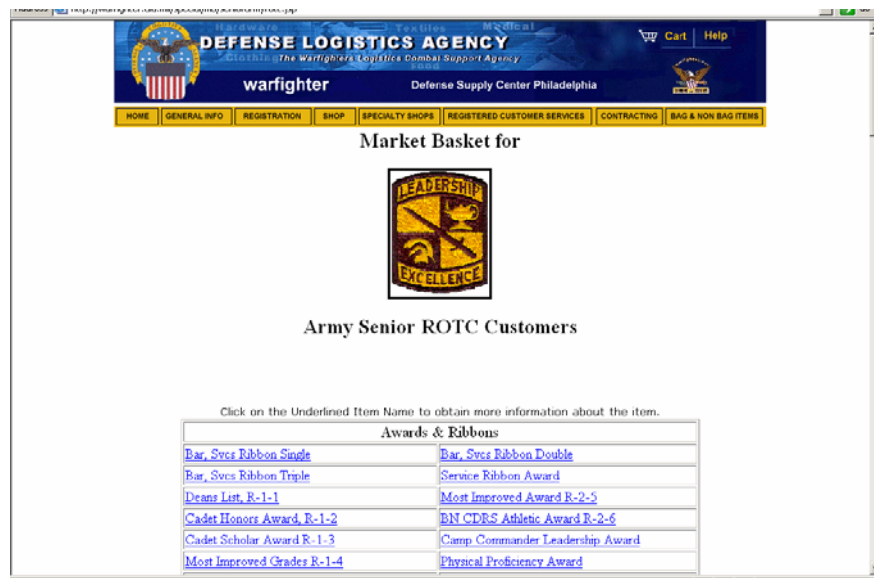

warfighter.dla.mil Main Menu Bar Specialty Shops:

ROTC Market Baskets represent customer-requested tools to support specific program requirements. warfighter.dla.mil, using direct customer input, developed these tailored mini-catalogs. Currently warfighter.dla.mil's market baskets support the Reserve Officer Training Corps (ROTC) programs for Army Seniors and Juniors; Air Force Seniors and Juniors and the Marine Corps Juniors. Click on the applicable hyperlink to reach your destination.

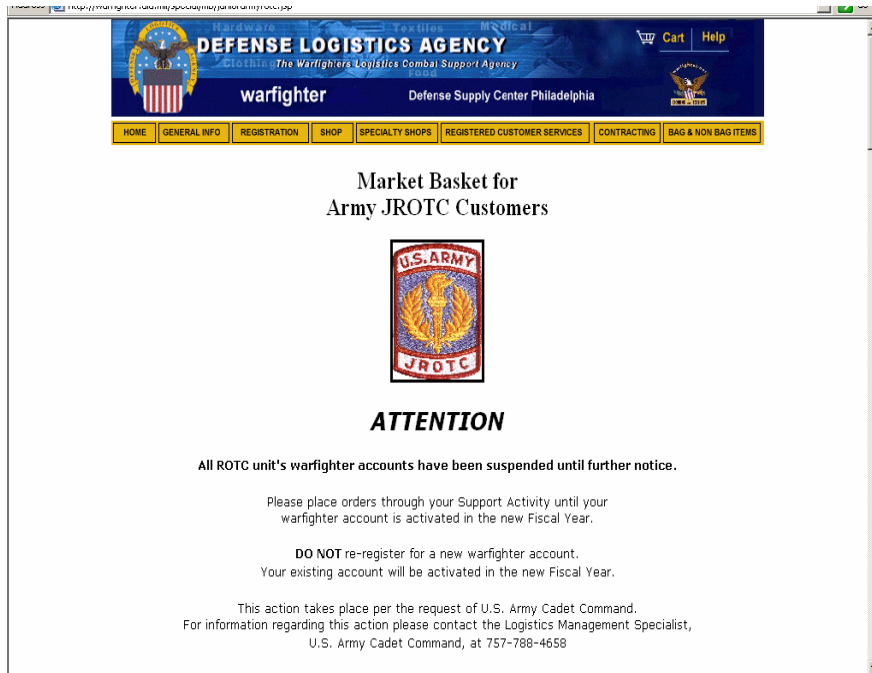

Army Senior ROTC customers must have authorization from the U.S. Army Cadet Command prior to placing an order from warfighter.dla.mil. Items included on this site include awards and ribbons, belts and buckles, camp clothing and equipment, outerwear, flags, footwear, insignia, service dress uniforms and related uniform items.

warfighter.dla.mil Main Menu Bar Specialty Shops:

Army Junior ROTC customers must have authorization from the U.S. Army Cadet Command prior to placing an order from warfighter.dla.mil. Items included on this site include awards and ribbons, belts and buckles, camp clothing and equipment, outerwear, flags, footwear, insignia, service dress uniforms and related uniform items.

Air Force Junior ROTC authorized users find item sections broken out by awards and ribbons, BDUs, belts and buckles footwear, outerwear, service dress uniforms and various uniform items.

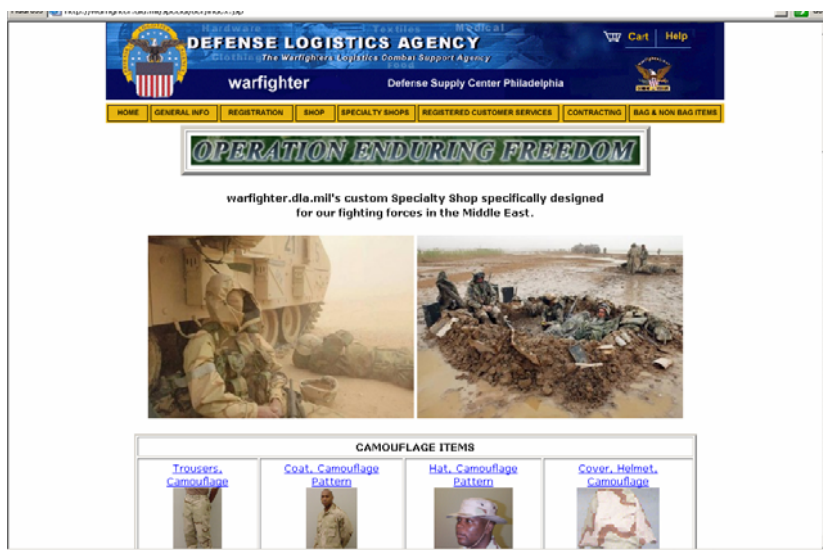

Marine Corps Junior ROTC authorized users will find their items listed separately by men's and women's. Section for insignia is also provided.

warfighter.dla.mil Main Menu Bar Specialty Shops:

Operation Enduring Freedom: One of our newest shops, this was designed for our fighting forces in the Middle East. Here you will find most of the items needed in country. Included are all the desert camouflage items; all types of boots from flyers, to hot weather, cold weather, desert steel toe, and overshoe boot combat. Marine Corps digital cammies are located here, too. Ecclesiastical items, especially all of the various chaplains' kits are in the shop. IPFUs, underwear, and socks along with miscellaneous items such as duffle bags, goggles, knee pads, sleeping bags, insignia and panel markers are displayed.

USAF OSI Customers' Market Basket: Site, designed at the request of the customer, is limited to the Air Force Office of Special Investigations.

Special Measurement Sites:

The Special Footwear Store accepts requisitions for special measurement footwear and for orthopedic shoes and boots. Customers must be registered warfighter.dla.mil users and log on to use the site. Although registered customers may place their order through warfighter.dla.mil, they must also furnish a copy of their requisition and any prescription, drawing, tracing, mold or cast directly to the Department of Veteran Affairs Medical Center. All ordering information is explained in detail on the site.

Requisition Status

Julian DODAAC Date Serial NSN Project Status
SC0101 [] [] [] [] [] []

Start Date End Date Priority RDD Supp Addr
YYYY-MM-DD YYYY-MM-DD [15] [] []

Regular Report Excel Spreadsheet

- Select a DODAAC and enter up to 4 digits of a Julian date (YDDD) to get a listing of all requisitions for that date. You may even enter a partial Julian date, e.g., "720" would give you all the requisitions for Julian dates 7200 through 7209.
- Optionally, you may enter a starting and/or an ending date to limit the query to a particular time frame.
- If you are interested only in requisitions with a particular Project Code, fill in that field.
- You can further limit the search by entering a status code; for example, "BB" will give you all the requisitions that are on backorder.
- Enter a complete or a partial NSN if you want to see if you have any open requisitions for a particular item or group of items. As a bonus, you can use hyphens for readability (8405-00-001-1234). Or not--the choice is yours.

DSCP Home This is a DoD web site Notice of Restrictions, Privacy, Security & Accessibility Contact Us

Inquiry allows one to query by DODAAC, Julian date, start / end date, project code, supplementary address, status code, priority, RDD and either a complete or a partial NSN

For the following example, the only data entered was start date. The DODAAC will come up automatically since the customer is logged on to the site. If more than one DODAAC was registered for the account, the customer could select the DODAAC of choice from the convenient dropdown menu. You can set a specific priority or leave it at the default of "15" and all priorities will be returned.

warfighter.dla.mil Main Menu Bar

Registered Customer Services, Obtain Requisition Status, continued:

The following example was modified to show just a few of the requisitions that were returned. This function is significant because it provides not only requisition status but also gives you the ability to track the delivery of your items. Further, should you receive a discrepant shipment; you can submit a Supply Discrepancy Report on line by clicking on the requisition. Most of your data will be pre-populated, saving you time and minimizing data entry errors.

February 03, 2003

Note that you can track the shipments by clicking on the  icon for those items that are in BA or SS status, and you may submit a Discrepancy Report by clicking on the  icon for those items that are SS.

Fill in the required areas. NOTE: If you were submitting on line directly from the Requisition Status page, warfighter.dla.mil would pre-populate your requisition number and NSN.

Use the convenient dropdown menus for Discrepancy Code and Action Code.

For information about ROD submissions, check warfighter.dla.mil's "FAQs", which are found on the Main Menu under General Info

warfighter.dla.mil Main Menu Bar Registered Customer Services, Legacy System Interface (LSI)

Legacy System Interface (LSI) web page is for customers who need to submit their requisition data into their own legacy systems. LSI provides instant access to customer requisitions in either HTML or Excel spreadsheet format. It is also useful to check your recent requisitioning activity, or if you need to check order activity for a particular time frame. It is a powerful management tool. Customers using this service can obtain a requisitioning history for themselves or one of their ordering subordinates. Customers can query database in a variety of ways including: targeted period with stated start/end dates, or one specific date; DODAAC, supplementary address, requisition type, or project code. Report data includes information such as document number, price, quantity, item, etc., formatted in a convenient report with totals. Easy-to-follow instructions are provided on the web page. LSI allows you to select either regular requisitions or special measurement requisitions.

Legacy System Interface

User ID: jtlac
Start Date (YYYY-MM-DD): 2004-07-21
End Date (YYYY-MM-DD):
Dodaac: *
Supp Addr (See instructions):

Rows to Display per Page: 100
Format: HTML

Buttons: Quick Report, Regular Report, Special Measurements, ASCII (MiStrip), Reset Form

Instructions

User ID: Your User ID should be filled in automatically.

Dodaac: If you are authorized for more than one Dodaac and want to limit your search to one of them, enter that Dodaac here.

Supplementary Address: Enter one of your authorized Dodaacs if you want a list of all requisitions from other activities that are using your Dodaac as a Supplementary Address. For more details, see below.

Start Date: Enter a starting date for your search. If you leave both start and end dates blank, you will receive all the data since your last request.

End Date: Enter an ending date for your search. Leave blank for today's date.

Rows per Page: This controls the number of rows that are returned on a single page. If you request an Excel spreadsheet, you should set this to a number large enough to accommodate all the data.

About the Supplementary Address Field.

The purpose of the Supplementary Address field in this form is to allow a central activity to keep track of its field activities' requisitions. For example, a Headquarters activity may have all its field activities put its Dodaac in the Supplementary Address field so that the requisitions are billed to Headquarters rather than to each separate activity. If you are one of the field activities, be sure to leave this field blank, or you won't receive any data in your query.

Note the various query options available: start – end dates, DODAAC, supplementary address, and project code. You must specify if you query special measurement requisitions. Check format desired: HTML or ASCII measurement

warfighter.dla.mil Main Menu Bar

Registered Customer Services, C&T Item Manager Notes via Virtual Page

The Item Manager uses the Virtual Page to display DLA-mandated data. Here customers will see basic information on the item's supply status or notes of special interest that customers need to know to accomplish their missions. At a minimum, customers will generally find contact info on the Item Manager. Problem items will reflect a clear statement of the problem and an anticipated get-well date. ESOC status, sources of alternate supply, due-in status of purchase requests or contracts and the date of the last update will appear as applicable. Customers are also encouraged to call the DLA Call Centers (1-800-DLA-CALL) if automated tools do not meet their information requirements.

Click here to get data

Customers have the ability to query on a specific NSN or an entire Procurement Grouping Code. Use no dashes when you enter data.

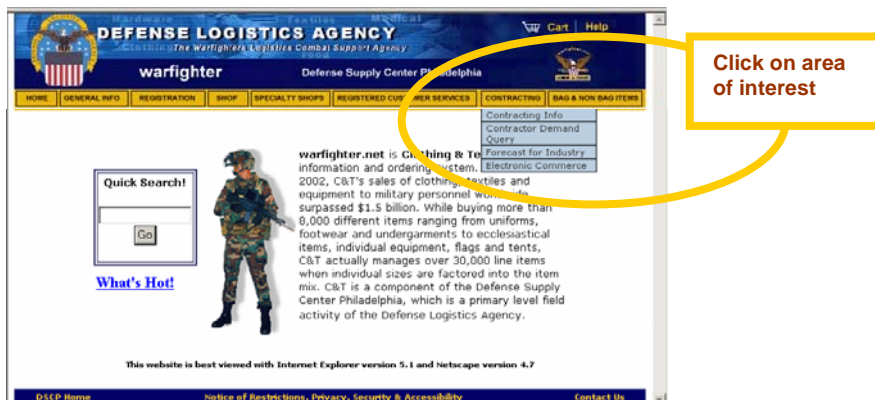

In this instance, the only data that appear are Item Manager contact information. Information could contain "get well dates", possible substitutes, etc.

Contractor Demand

This query is intended solely for use by contractors presently under contract with the Directorate of Clothing and Textiles, Defense Supply Center Philadelphia. The purpose of this query is to offer a snapshot of the demand history for the present and four previous quarters and is searchable by either National Stock Number (NSN) or Procurement Grouping Code (PGC).

Each Contractor wishing to gain access should designate a company representative(s) to receive an individual account Login ID and Password. Your access is limited to a maximum of two accounts (e.g., primary and alternate) per company. Submit your request below, subject "Request for Contractor Demand Access" to jskennedy@dlm.mil. All requests should include the following information for each individual:

Last Name:	<input type="text"/>	First Name:	<input type="text"/>
Company Name:	<input type="text"/>	CAGE Code:	<input type="text"/>
Phone:	(<input type="text"/>) <input type="text"/>	FAX:	(<input type="text"/>) <input type="text"/>
Email:	<input type="text"/>	Street:	<input type="text"/>
City:	<input type="text"/>	State:	<input type="text"/>
		Zip:	<input type="text"/>
Current Contract Number(s):		<input type="text"/>	
Current Contract Expiration Date(s):		<input type="text"/>	
(YY/MM/DD)			

Enter the following for the Accountable Company Official:

Last Name:	<input type="text"/>	First Name:	<input type="text"/>
Email:	<input type="text"/>	Phone:	(<input type="text"/>) <input type="text"/>

Requestors will be notified of their Login ID and Password directly. Expiration of all Login IDs and passwords will coincide with contract expiration. It shall be the responsibility of the Accountable Company Official to notify via the above email link of any individual with an active account who has left the employ of their company within three business days of their leaving, so said account can be terminated.

If you already have an ID and password, you may [Proceed to the Contractor Demand Query](#).

Forecast to Industry

Memorandum To:

Prospective Clothing, Textile, Equipment and Footwear Contractors

[[FORECAST](#) | [CONTACTS](#) | [CONTRACTING PAGE](#)]

Directorate of Clothing and Textiles' (DSCP-C), as the procuring activity located at 700 Robbins Avenue, Philadelphia, PA 19111 has prepared a forecast of planned DSCP Clothing, Textile, Equipment and Footwear procurements for the period April 2004 through September 2004. Awards are planned to be made during the quarters indicated. This list contains only those items having a dollar value of \$100,000 or more per quarter. Normal production lead time and delivery schedules will be allowed whenever possible. Small business or labor surplus area set asides may be involved, but that determination can be made only when individual acquisition action is initiated. More detailed description of item may be found at warfighter.ne using NSN or PGC code.

This forecast is based on the best information available and is subject to revision due to changes in demands, availability of funds and military recruitment. Recent events may affect the items and requirements portrayed here. As always, we will inform you as early as possible of substantive changes; but **this forecast should in no way be considered binding upon the Government.**

If additional information is required please call, (215)737-5872, or area code (215) 737-3030. More specific information relating to any individual item or class of items will not be furnished until the proposed acquisition is synopsized in the [Federal Business Opportunities](#) or the solicitation is issued.

Listings of the applicable standardization documents are provided in the Department of Defense Index of Specifications and Standards (DODISS) which is available from the [Document Automation and Production Service](#).

[POINTS OF CONTACT](#)

[Prompt Payment of Invoices to Clothing & Textiles \(C&T\) Contractors](#)

What is VIM-ASAP?

Virtual Item Manager – Apparel Research Network Supply-chain Automated Processing (VIM-ASAP) is a web site that is used by DSCP-C&T's manufacturers and bill and hold contractors to:

1. Access electronic contracts
2. Record start of production
3. Prepare invoices and container and shipping documents
4. Transmit electronic invoices to DFAS
5. Track payments
6. Prepare MRO/RDO and container and shipping documents
7. Synchronize DSCP and their own inventory records
8. Generate all appropriate MILSTRIP and MILSTRAP transactions

(The next three points are applicable to bill and hold contractors only)

Specification/Pattern/Drawing Request: This on-line feature is limited to prime contractors for open "SP0100" solicitations only. All other requests should be directed to the appropriate Contracting Officer. You can request multiple documents by using the "Special Instructions" block.

What's Hot!

warfighter.net is Clothing & Textiles' online information and ordering system. In Fiscal Year 2002, C&T's sales of clothing, textiles and equipment to military personnel worldwide surpassed \$1.5 billion. While buying more than 8,000 different items ranging from uniforms, footwear and undergarments to ecclesiastical items, individual equipment, flags and tents, C&T actually manages over 30,000 line items when individual sizes are factored into the item mix. C&T is a component of the Defense Supply Center Philadelphia, which is a primary level of activity of the Defense Logistics Agency.

This website is best viewed with Internet Explorer version 5.1 and Netscape version 4.7

Frequently Asked Questions

1. What is warfighter.dla.mil? warfighter.dla.mil, formerly warfighter.net, is an on-line catalog and order fulfillment system as well as a robust information resource maintained by Clothing & Textiles (C&T), a component of the Defense Supply Center Philadelphia (DSCP). DSCP is a primary level field activity of the Defense Logistics Agency. Anyone, any time, anywhere in the world, can check the latest information about the more than 8,000 Class II items offered for sale. Only registered users can place orders (requisitions) directly on line, speeding up their requisitioning processes and obtain more in depth item information, such as requisition status or delivery information.

2. Who uses warfighter.dla.mil? warfighter.dla.mil is a web site, so anyone with access to a web browser may view the contents of our catalog. However, ordering and other stock related transactions are restricted to registered users. warfighter.dla.mil accepts registrations from authorized military organizations and from other authorized Federal or State Government agencies. So, as long as you have a valid Department of Defense Activity Address Code (DODAAC), you can easily register with warfighter.dla.mil and use it to order on line. We also have some registered users who use warfighter.dla.mil to facilitate other on line stock-related transactions such as checking stock availability, requisition or delivery status or to submit or trace status on Supply Discrepancy Reports. See questions #39 through 41 for additional information on DODAACs.

3. What payment methods does warfighter.dla.mil accept? Depending upon the customer's stated preference; warfighter.dla.mil accepts MILBILLS or the Government purchase (credit) card. Accounts will be billed at point of sale.

4. When does warfighter.dla.mil bill the credit card customer? All customers' credit card accounts will be billed at point of sale. This means that in some cases, if there is a stock outage, or a delivery delay, you may receive your monthly credit card bill before your order is actually delivered. **Customers are strongly urged to gauge item availability prior to placing a credit card order by checking stock on hand.**

5. How do I get an account with warfighter.dla.mil? Logon to warfighter.dla.mil, access the user registration page and enter the required information. For MILSBILLS and Government purchase (credit) card customers, warfighter.dla.mil requires you submit your name, organization, address, email address, commercial phone number, including area code, FAX and DODAAC. After you confirm and submit all required data, a screen will appear showing your user login id (which you established) and a temporary password. Normally, within forty-eight hours, or on the following business day, you will receive an email confirmation that your registration has been accepted by the warfighter.dla.mil system. The email provides instructions on how to log on to warfighter.dla.mil and change your temporary password.

6. I am authorized and trained to use a Government purchase (credit) card. What do I have to do to use it for all my purchases on warfighter.dla.mil it? Upon registration you will select credit card method of payment and enter credit card information that is to be applied to your purchases.

7. What happens if my credit card is rejected or declined? warfighter.dla.mil has agreements in place with the Treasury Department's Financial Management Service (Pay.gov) and Mellon Bank. Your card will be processed through these agencies and verified. It is possible that your card may be rejected or declined for a variety of reasons: credit card limitations (daily/monthly), insufficient funds, expired card, duplicate action, invalid card, missing data, processing error, improper card format, etc. If the card is declined, the system will generate a specific message explaining action to be taken. If you exit the system without placing an order, warfighter.dla.mil will save your shopping cart for future use. Check under "Composing" to retrieve the order.

8. How soon after I register can I place an order? Normally, you can start ordering as soon as you receive email confirmation that your registration has been accepted. Log on, click on "Cart" link at top right corner of the page. Follow the prompts to change your temporary password.

9. You mentioned something about getting a temporary password. Be more specific. When you register you will receive a temporary, generic type password, which you will have to change when you log on to warfighter.dla.mil for the first time. Since warfighter.dla.mil is a military site, DoD password rules apply. All passwords must have at least 8 characters. Passwords must contain characters from at least three (3) of the following four (4) classes within the password.

<u>Description</u>	<u>Example</u>
Upper case letters	A, B, C, ...Z
Lower-case letters	a, b, c, ...z
Numbers	0, 1, 2, ... 9
Special Characters	Such as punctuation symbols (".:;?!?/)

Passwords may NOT contain your login name or any part of your full name. Passwords will expire every 90 days and the system will remember your last two (2) passwords, so they cannot be reused. Examples of valid passwords: Pxy999a or new4you# or not4Sale.

10. What do I need to order from warfighter.dla.mil? First of all, you'll need access to a web browser. Supported browsers include IE 5.1 and 5.5 with Virtual Machine (VM) 3240 and Netscape 4.7. Internet Explorer can be downloaded from www.microsoft.com. Netscape can be downloaded from www.netscape.com. You'll also need an Internet email address so that we can send you confirmations, etc. And you'll need to register and obtain user ID and password for your account on our system. System requirements include:

Minimum Screen Requirements

- Resolution: 800 x 600
- Colors: 256
- Monitor Size: 15" or larger

Minimum RAM Requirements --- 32 MB or higher

Minimum Processor (CPU) --- Pentium or faster

Minimum Remote Access Requirements --- 56 KB or faster

Minimum Hard Drive Space Requirements --- 1GB

It is also wise to ensure that the setting for your browser is marked to check for updated versions of the page each time your visit.

11. Sometimes it takes warfighter.dla.mil a long time to load. Why is that? You may experience some slowness when the page is loading if you are using less than a 56K connection speed. Check out the response to question #10, which lists minimum system requirements.

12. What Internet Explorer settings can I use to speed up my Internet Performance? To optimize your speed, it is wise to check your Internet Explorer settings occasionally. Here's how: First, **Select Tools, Internet Options:** In the center of the dialog box, under Temporary Internet Files section, **click** on the **'Settings'** button. Make sure your **radio button** is set to **'Every visit to the page'** and then **click OK**. Next, **click** on **'Delete Files'** button. You will get a pop-up window where you will **click OK**. This may take a few minutes. Lastly, **click** on **'Delete Cookies'** button. You will also get a pop-up window here. **Click OK**. This too may take a few minutes. Once you have finished, **click OK** and you are done.

13. What are user preferences? How do they speed my order process? How do I register them? You can make your shopping as simple as selecting the item, the quantity and hitting "Checkout"! After you log on, go to the menu bar; click on "Registered Customer Services"; then click on "Preferences". Follow the prompts and enter your MILSTRIP data, such as Media/Status Code, Signal Code, Fund Code, Supplementary Address, Project Code or Distribution Code. Once registered, warfighter.dla.mil will automatically pre-populate all your orders, saving you data entry and edit time and minimizing data errors. *NOTE: You will always maintain the ability to override / edit the data before submission, if necessary.*

14. Is there a time out on warfighter? Also, what happens to my order if my browser shuts down, or there is a power failure? If there is no activity on the site for sixty minutes, warfighter.dla.mil will automatically time you out and shut down. However, your orders will not be lost. You would have to log on again if you still have business to conduct. To retrieve your order, after you log back on, go to "Shop" on the menu bar; click "Composing" to select your unfinished order. Once retrieved, it can be edited and submitted. The same thing applies if there is a power outage.

15. Does warfighter.dla.mil ever advertise special buys?? Where can a customer find info on some great deals? Check out "What's Hot!" on our homepage. In addition to special interest items, you will also find the latest edition of Clothing & Textiles' monthly newsletter called **The Clothesline**. **The Clothesline** is your best source of information on new items, special price reductions, problem items and estimated get-well dates and for some problem items, various substitutes. Smart shoppers consider **The Clothesline** required reading. Current and past issues can also be found on the main menu under the "General Information" button.

16. How can I search your catalog? At our home page, you'll see a box labeled "Quick Search". Enter a keyword, a national stock number, a description, a military specification number or a procurement

grouping code. You can limit items returned by defining your search by using service (s); e.g. coat desert Army Air Force. Commas are not required to delineate your search. If you have a problem, try the synonym search. To speed your search process, we suggest you include all desired parameters in your search. Remember, to order an item, you must be registered. Once you have logged on and are in a shopping mode, you will see a search block throughout the shopping process.

17. warfighter.dla.mil advertises "Specialty Shops "; what are they? Specialty Shops are unique, mini-catalogs that focus on a specific customer demographic. They're intended to speed your shopping and make it easy to order just the "right" item. Based upon customer input, the number of these shops keeps growing. Current shops include: Base Camp (tentage items), Chaplains' Corner (ecclesiasticals), Fighting Footwear, Navy Aviators, Aircrew Cold Weather Clothing System (ACWCS) Components, Combat Vehicle Crewman (CVC) Components, Law Enforcement, Extreme Cold Weather Clothing System (ECWCS), Special Footwear, and the Gym Bag (physical fitness uniforms). We also support ROTC Market Baskets, which contain the full array of uniform needs for the Air Force, Army and Marine Corps programs. As a single user, you can create your own "mini specialty" shop by creating a template of the items for your special program, project, unit or individual and save it as a "stored order", which you can retrieve and use over and over. See responses to questions # 26, 27, 28 and 29 for additional information on "stored orders".

18. Think I found the item, but need more information. How do I get it? Along with an extended item description, using services, specification number and UPC data. We also provide Contact Information to obtain specific item data. Depending on the urgency of your buy, either call the Item Contact Information Point, who can provide you with any additional item info you may need, or go to the "Registered Customer Services" on the menu bar and click on "Item Manager's Notes – Virtual Page Application (formerly "SIMI" notes). Enter appropriate item information: NSN or Procurement Grouping Code.

19. What about sizing questions or item availability, can the Contact Information Point help me with that, too? Of course, the Item Contact Information Point will be able to obtain that data for you. Another method for use by registered customers is to go to "Registered Customer Services" on the menu bar and click on Item Manager's Notes on the Virtual Page Application for added information. That data may be obtained at the Procurement Grouping Code level or by NSN.

20. If I have general comments, concerns, suggestions or complaints about Clothing & Textiles (S9T) items or service, how do I cut through the red tape and get someone to listen? Reach us through the C&T Feedback program. All comments coming in through feedbackct@dscp.dla.mil have high visibility and are guaranteed a prompt, thorough response. As a matter of information, C&T's Senior Management closely monitors all customer feedback comments along with our responses.

21. If I need help either ordering or canceling a requisition, who can help me? You have options. Click on the "Help" buttons at the top of each page or go to menu bar and click on "General Info". The drop down menu will give you access to the online Users' Manual, the Frequently Asked Questions (FAQs), and specific info – by Service - on how to order flags, guidons and streamers. Of course, you can always call warfighter.dla.mil; in the continental U.S. you can call us toll-free weekdays at (800) USCLOTH [(800) 872-5684] or (215) 737-8349 (or DSN: 444-8349) from 8:00 am to 5:00 p.m. EST. You can also reach us via email at warfighter@dscp.dla.mil. At any time – 24/7, especially during off hours or on the weekend, for requisition cancellations, emergency requisition placements, status, etc. call the DLA Customer Contact Center. Call toll free at 1-877-DLA CALL (352-2255), or DSN 932-77-66 or commercial at (269)961-7766.

22. If there is a special situation regarding the item I want to order, e.g. you're out of stock, or if the Item Manager is controlling issues etc., how can I tell? Registered users can obtain item manager notes through the Virtual Page Application, formerly called "SIMI" notes, by accessing the "Registered Customer Services" on the menu bar. Click on "Item Manager Notes – Virtual Page Application". Enter national stock number or procurement group code for the item (s) of interest. Application will return item manager notes on areas such as: new item introductions, backorders, freeze codes, manager review codes, substitutions, replacements, quality issues, etc. Brief explanations, including estimated get-well dates, are generally provided. This link accesses the latest item information to help you to make an informed purchase decision. You can also call the Item Contact Information Point.

23. You say customers may search for an item by Procurement Group Code. What is that? A Procurement Group Code (PGC) is an internal 5 digit numeric code that DSCP uses to group individual sizes of a standard generic item (e.g. Coat, Cold Weather, Woodland Camouflage). Integral to our

acquisition management they provide the means by which we consolidate planned buys and eliminate the need to make separate purchases for individual sizes of an item.

24. Throughout the ordering process, there are a very few places that require specific data entries. How do I figure out what these are or what the order entry codes are? Usually those elements are underlined indicating that you can click on them and that link will bring you directly to the specific explanation or codes. You can also check out the link for the DLA Customer Assistance Handbook by going to warfighter.dla.mil main menu bar and click on “General Info”. Link follows: <http://www.supply.dla.mil/CustomerHandbook/index.asp>. Anytime you’re stumped, click on the underlined element for help.

25. Noticed something called Quantity Unit Pack (QUP). What is it? Will that affect my order quantity or billing in any way? QUP helps us determine optimum packaging requirements. Our legacy system performs this check on each stock number. If it looks like the system will round up the quantity you ordered based upon the QUP check, warfighter.dla.mil will display a warning message advising that quantity will be adjusted upward. warfighter.dla.mil then automatically enters “Advice Code 27” to specify exact ordered quantity. However, if you choose to receive the QUP quantity, you can edit/override the advice code.

26. warfighter.dla.mil advertises something called “Stored Orders”. What are they? How do they work? Can I save mine and use it again and again? Stored Orders are basically a “parked” shopping cart – or a shopping template – that contain all the repetitive items you purchase for a specific project, unit, individual, etc. They are designed to give you great flexibility and shorten your shopping time. After you register and log on, go to the menu bar and click on “Shop”. Create your Stored Order as you would a normal shopping cart. However, after you complete your cart, you save it as a “Stored Order”. Be sure you see the advisory note that indicates your cart has been saved as a Stored Order. Give the Stored Order a name or title, e.g. Unit 123 or Project ABC, etc. Save the name.

To retrieve a “Stored Order”, log on and go to “Shop” on the menu bar; click on “Stored Order”. When the file appears, click on the “Stored Order” of your choice. Once it appears, click on “Create Care from Stored Order”. A new order number will appear and at that time you can click on “Checkout” if there are no changes to make or you can edit the Stored Order by adding or deleting items or by changing quantities. Any changes you make will affect only the current shopping cart. Once you complete your shopping cart, click on Checkout. Your new order will be processed but your original Stored Order will return to file for future use. In effect, you have created your own, personal specialty shop that has been tailored to your unique repetitive needs.

27. Is there any limit to the number of “stored orders” a customer can create? Is there any limit to the number of items that can be placed in a “stored order”? The number for both is unlimited ... unlimited “stored orders”, unlimited items in a stored order cart. However, if the number of items in your shopping cart exceeds three hundred (300), you may experience a slight delay in processing.

28. I place repetitive orders for several individuals within my unit. Are you telling me, then, that I could name my “stored orders” with their names? Yes, name your “stored orders” for individuals, for a unit, for a specific project, function, etc.

29. Is there certain information that applies to entire shopping cart; e.g., DODAAC, MILSTRIP data, such as Fund Code, Priority Code, and Project Code; Billing Method and Shipping Information? Yes, there is. When you create your shopping cart, all of the information cited above will apply to the entire cart. Therefore, if any of these entries vary for items in your shopping cart, you must create a separate cart for those items. As an example, if item #1 is for project code 123 and item #2 is for project 456, you must use a different shopping cart. What this means is that the item requisitions in your shopping cart will all carry the same DODAAC, use the same Fund Code, the same Priority Code, the same Project Code, be billed using the same method – MILSBILLS or Government credit card, and be billed to the same address. Anything that required different data will cause you to create a separate shopping cart or stored order.

30. Does warfighter.dla.mil provide any kind of order confirmation? Immediately after you place your order, we will send you a confirming email that provides your order number and total transaction dollar value. Information on how to obtain order status is included as well as your billing method (MILBILLS or Government purchase (credit) card) and shipment address. For order status – anytime after twenty-four hours, you will need your order number. Go to the main menu of warfighter.dla.mil, click on “Shop”, “View Approved Orders”. Look for your order number and click on it to see all the specific requisition document

numbers. Included will be the items, sizes and quantities ordered, unit prices, and total cost. *REMEMBER: You have to wait 24 hours to obtain order status.*

31. Once I've ordered from warfighter.dla.mil, how can I check my order, in other words, my requisition status? Twenty-four hours after an order is submitted, MILSBILLS or Government purchase (credit) card customers can click on the hyperlink in their confirmatory email; or log on and click "Registered Customer Services" and then click on "Requisition Status". A page with your DODAAC will appear. At this point you can decide if you want to search status on requisitions over an extended period of time or for a specific Julian date. You can check by Project Code, by Supplementary Address, by Status Code, by Required Delivery Date and by full or partial National Stock Number. Abbreviated search results showing status will appear. For an explanation of the status code, just click directly on the status code for a link to definitions. For a detailed status of your order, click directly on your requisition number. If the item is in "SS" status, meaning it was shipped, click on "track shipment" to obtain delivery status. Note: The system also allows you to request your data in Excel Spreadsheet format.

32. Is there any way I can track shipment on my order? Sure, at the same time you're checking requisition status, if the item is in "SS" status, meaning it was shipped, click on "track shipment" to obtain delivery status, or if you prefer, call the DLA Customer Contact Center 24/7 toll free at 1-877-DLA CALL, DSN 932-7766 or commercial at (269) 961-7766.

33. My method of payment is MILSBILLS. Items I order are delivered to my DODAAC default shipping address. I'm not physically located at that address. What can I do to ensure delivery of warfighter.dla.mil goods to me? As soon as your order is received, warfighter.dla.mil will send you an email confirmation. We strongly urge you to copy that message and provide it along with your contact information to the personnel at your shipping/receiving point so that they can notify you when your shipments arrive.

34. Saw something about "Legacy System Interface" or LSI. What is it? LSI is a powerful management and information tool. It provides instant access to your requisitioning history in either ASCII (the actual 80-card column MILSTRIP image) or in plain text. You specify the date ... one day or a period of your choice. It's easy to determine just what and how much you ordered over any specific period of time. The data can be copied to a clipboard or disc and used however you need it. LSI reflects every requisition you submitted to warfighter.dla.mil, including those that have been cancelled or rejected.

35. What is a maximum release quantity (MRQ)? The MRQ is the maximum quantity of stock authorized for issue against a single requisition without item manager review action.

36. OK, I got the items, but you shipped either the wrong item or the wrong quantity... now what? Oops, we do make mistakes. For MILSBILLS and Government purchase (credit) cards, warfighter.dla.mil provides for the submission of an on-line supply discrepancy report (SDR) formerly known as RODS. If you're checking status, and the item is in "SS" status (shipped), there will be a button to the left of the line. Click on the button and it will take you directly to the SDR submission page. Or, if you prefer, click "Registered Customer Services" on the menu bar; then click on "Submit Supply Discrepancy Report" and follow the easy instructions. Another option is to call the Customer Service Office, DSN 444-5127, (215)737-5127, Fax (215) 737-3806 can help you with general questions concerning any specific SDR, such as tracking it or its status.

37. It wasn't your mistake. It was mine. I either ordered the wrong size, the wrong color, the wrong item or the wrong quantity. Help me! OK, so you're not perfect either. Since it was your error and not ours, it falls under the guidelines of the Materiel Returns (or FTEs) Program. Follow the FTE process and submit your document to the item manager. If you are unsure of the process, or do not have the means to submit an FTE transaction, search the catalog for the item to obtain the Item Contact Information Point; then call to get instructions.

38. Oops! I forgot my password and or my user login name... Now what?? There are 2 ways to get help. One way is to click on Shop at the warfighter.dla.mil main menu. When the logon screen appears, you will see a script that asks if you "forgot your login info". Click on it and follow the prompts. You will be asked to enter the "special" name you provided as "Mothers Maiden Name" when you registered. Another is to go to main menu; click on "Registration"; then click on "Forgot Your Password?"; and follow the prompts as cited above.

39. What's a DODAAC? A DODAAC is a Department of Defense Activity Address Code. It is a six-digit alphanumeric code that uniquely identifies your unit, activity or organization that has the authority to

requisition and / or receive materiel. It supports the Defense Transportation Payment Program. The first digit is a service code (e.g., "N" represents the Navy), so many folks think of it as a five digit Activity Address Code. If you've ever submitted a requisition to us (or to another DoD purchasing activity), your DODAAC is the first 6 characters of the Document Number. There can be up to three distinct addresses associated with each DODAAC: the TAC1 (mailing address / mandatory); TAC2 (ship to (freight) address) and TAC3 (billing address). If there is no TAC2 present, warfighter.dla.mil will use TAC1 as the shipping address.

40. How can I find or correct my DODAAC? Go to your DODAAC Service Point :
http://www.dscr.dla.mil/PC9/G_info/dodaacservicpoints.htm

41. How many DODAACs can I register for my account? At the time of on line registration, you may register your primary DODAAC and then add up to 4 more DODAACs. If that is insufficient for your needs, you can register more DODAACs by calling the warfighter.dla.mil administrator at 1-800-USCLOTH to register an unlimited number of DODAACs.

42. What's a document number and what does it do? A document number is a 13-digit alphanumeric entity that uniquely identifies your requisition in our system, and allows you (and us) to track its status. It consists of the 6 character DODAAC, a 4 digit Julian date, and a 4 alphanumeric serial number. Typically the Julian date represents the date you submit your requisition, and the serial number is usually assigned sequentially. For example, the first requisition for a day might have a serial number of "0001", the second "0002", etc. However, many activities have other conventions for assigning serial numbers.

43. What's a Julian date? There are several definitions of "Julian date." Here is ours: a 4-digit number consisting of the last digit of the year followed by 3 digits representing the number of days since the beginning of the year. For example, 5001 is January 1, 2005, and 4366 is December 31, 2004.

44. My browser tells me you're trying to set a cookie on my computer. What's a cookie and why do you want to put one on my system? Cookies are one method of communicating between a web browser and a web server. We use session cookies to speed up the browser/server process. For example, when you log on to warfighter.dla.mil, our server tries to set a cookie on your system to identify you as an authorized user. For the duration of that session, our server uses the cookie to validate your account, rather than looking up your account in the database for each page access. The life of the cookie ends with your session. If you choose to disable the cookie, warfighter.dla.mil will still work but each page might take a second longer to load. You'll miss out on a few bells and whistles but not any critical functions.
